I am aware that your Organisation is carrying out the painful but noble task of relieving the suffering of parents of young people, victims of the ideological plague, which is oppressing us all, often causing their unfair imprisonment and of whom we do not even know whether they are still alive.

This is the case of my nephew DANIEL ALFARO VAZQUEZ, 30, Uruguayan, but residing in Buenos Aires (Argentina), who on August 11 1977, was abducted from his home, calle Rincón 211, Buenos Aires, by allegedly members of the Argentine Security Forces.

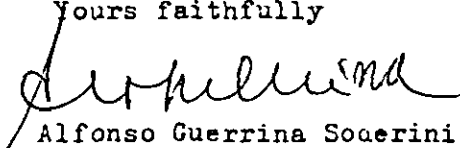

Since then, i.e. since nine months, his mother, his wife and his child know nothing about his fate and suffer hopelessly in that state of distress, brought about by tragic uncertainty and moral annihilation.

This young man Daniel Alfaro Vázquez is not a terrorist. At most he sympathises with those who preach the immediate implementation of the utopies that people would actually like to see at work.

I would ask you to kindly do whatever is within the range of your possibilities to let me know whether my nephew is alive. You may understand how this would soothen his mother's and his wife's distress.

May God inspire you !

Yours faithfully
